Labor Economist

Location: **Waltham, MA**

Practice Area: **Labor & Employment**

Company Description

Data for Decisions, LLC is a boutique consulting firm that designs, conducts, and delivers economic and statistical analyses and related advice to leading law firms, Fortune 500 companies, not-for-profit organizations, and government agencies. Our Labor & Employment Practice specializes in the analysis of large, complex datasets and brings strategic insight, analytic rigor, and clarity to issues involving diversity, equity and inclusion, allegations of employment discrimination, and the calculation of economic damages. Our Life Sciences Practice focuses on conceptualizing and monetizing the full social and economic value of vaccines, drugs, and medical devices.

We are committed to hiring highly talented and motivated individuals and providing them with the opportunities and mentorship support they need to establish stellar professional reputations and earn corresponding rewards. Our firm is small and informal, with a flat hierarchy, and a strong commitment to collegiality and teamwork.

Position: Labor Economist

Responsible for working closely with members of the Labor & Employment Practice on the design, conduct, and communication of complex economic analyses using labor economics theory and state-of-the-art methodologies.

This is a full-time position offering competitive compensation and benefits.

Duties include:

- Keeping abreast of trends and advances in labor and employment economics and law, including periodically conducting labor literature searches and case law research.
- Managing documents and data received from clients, including initial vetting and exploration of large complex employment datasets (HR, Payroll, Timekeeping, Recruiting).
- Reviewing and managing the building of analytical datasets by data scientists, with a view to ensuring quality control.
- Conducting econometric analyses using Stata and other software programs.
- Preparing emails, memoranda, reports, and presentations, including written descriptions and visual presentations of analyses and results.

681 Main Street, Suite 3-37, Waltham, MA 02451 USA · 781.642.8788 · www.datafordecisions.net

- Communicating with clients as needed.

Minimum Qualifications:

- PhD in Economics with significant emphasis on econometrics and microeconomic theory; PhD in Labor Economics preferred, but not required.
- At least two years of relevant experience.
- Proficiency in Stata and other standard econometric/statistical software packages.
- Proficiency using MS Office PowerPoint, Word, and Excel to create presentations, documents, tables, and graphs.
- Excellent writing and presentation skills.
- Must be able to work independently, and as part of a team.

Note that in compliance with federal law, all persons hired will be required to verify identity and eligibility to work in the United States and to complete the required employment eligibility verification form upon hire.

Data for Decisions is an equal opportunity employer. We celebrate diversity and are committed to creating an inclusive environment for all employees.

Due to the COVID-19 pandemic, all Data for Decisions employees will remain on Work-From-Home status through at least August 2021.

How to apply:

To be considered for this role, candidates must submit to lbloom@datafordecisions.net a cover letter, resume, writing sample, and names and contact information for three references.
